1. The following is an examiner's statement of reasons for allowance:

The primary reason for allowance is the claim recitation setting forth the sliding carriage as comprising a main body having a bottom face and two opposite side faces, the main body including a receiving space, a first hole that opens in the bottom face and that is in communication with the receiving space, a second hole that opens in at least one of the side faces and that intersects the first hole below the receiving space, a slat hanging unit including a head portion rotatable about a vertical axis and inserted into the receiving space through the first hole, a clip connected to the head portion and extending outwardly of the main body, a neck portion between the head portion and the clip, and a clamp unit inserted into the second hole and holding rotatably the neck portion, all of which is not disclosed nor fairly suggested by the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
